Answer ideas for grown-ups

R RETHINK glass jar that could hold pencils, cardboard box that could be a fort

R REFUSE saying no to a plastic straw, skipping the party-bag trinkets

R REDUCE turning off the lights

R REUSE jacket that is too small (hand it down or give it away)

R REPAIR teddy bear with a torn seam, squeaky wagon wheel, book with a ripped page

R RECYCLE empty soup can, old newspaper, plastic milk jug (rinse first, and check your town's rules)

Talk about it: The jar and the box could also be recycled. Which is better, and why? (Finding them a new job first keeps them in use and saves the energy recycling takes.)
